il treno

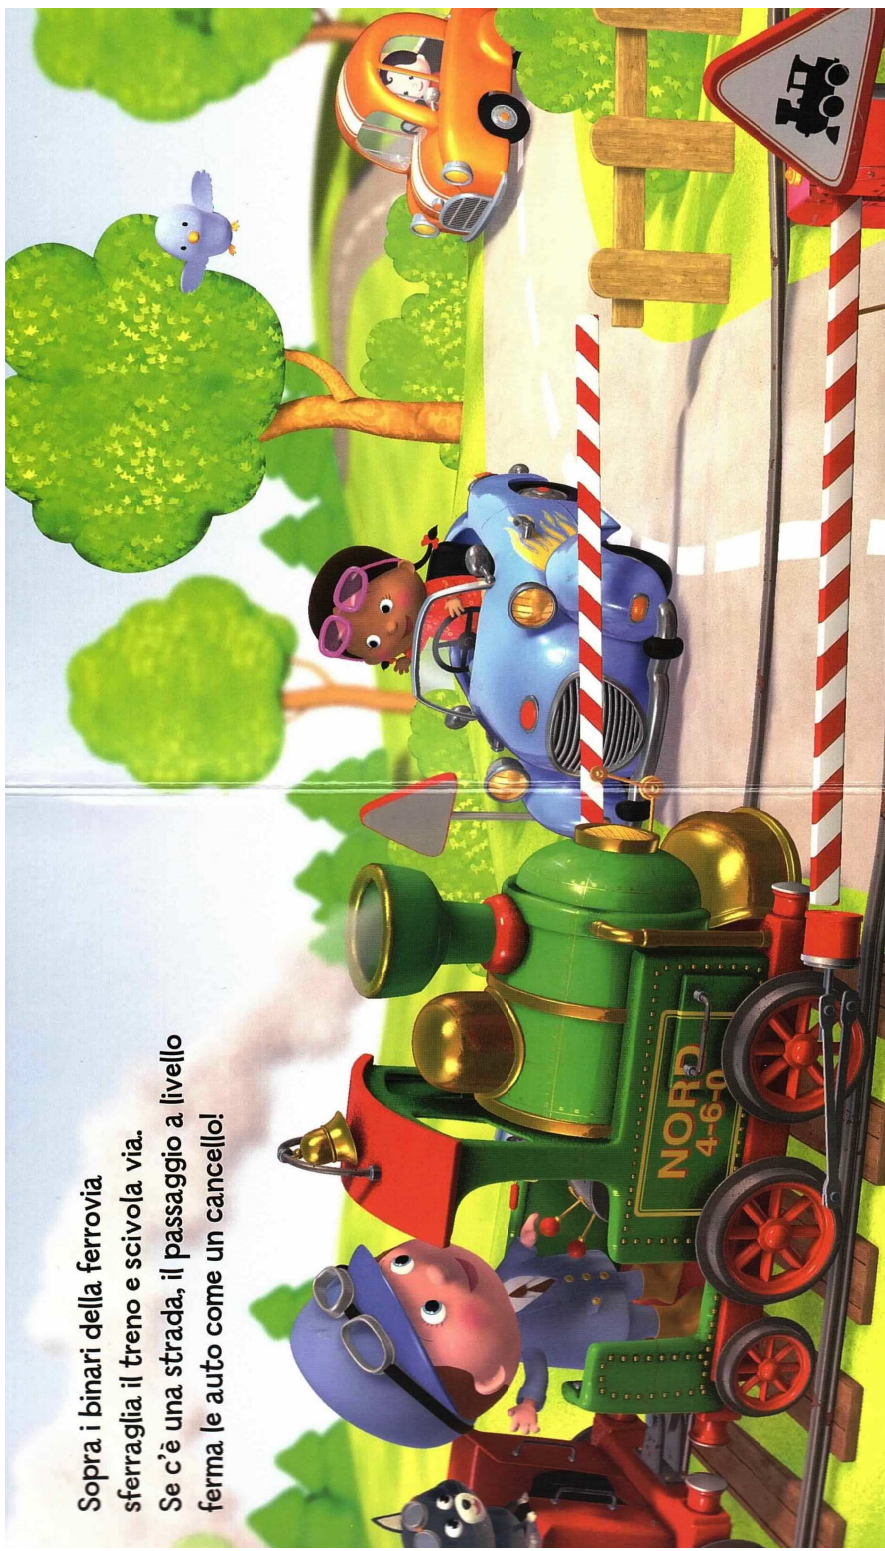

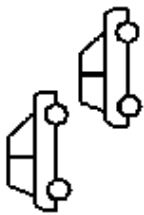

Alla stazione di Buona. Semenza
 il treno è pronto per la partenza:
 aspetta il fischio del capostazione
 poi parte e imbocca
 la sua direzione!

Sopra i binari della ferrovia
 sferraglia il treno e scivola via.
 Se c'è una strada, il passaggio a livello
 ferma le auto come un cancello!

Andrea, alla guida del treno a vapore,
con il carbone alimenta il motore.
Non è un lavoro di tutto riposo,
ma ad Andrea piace e
ne è molto orgoglioso.

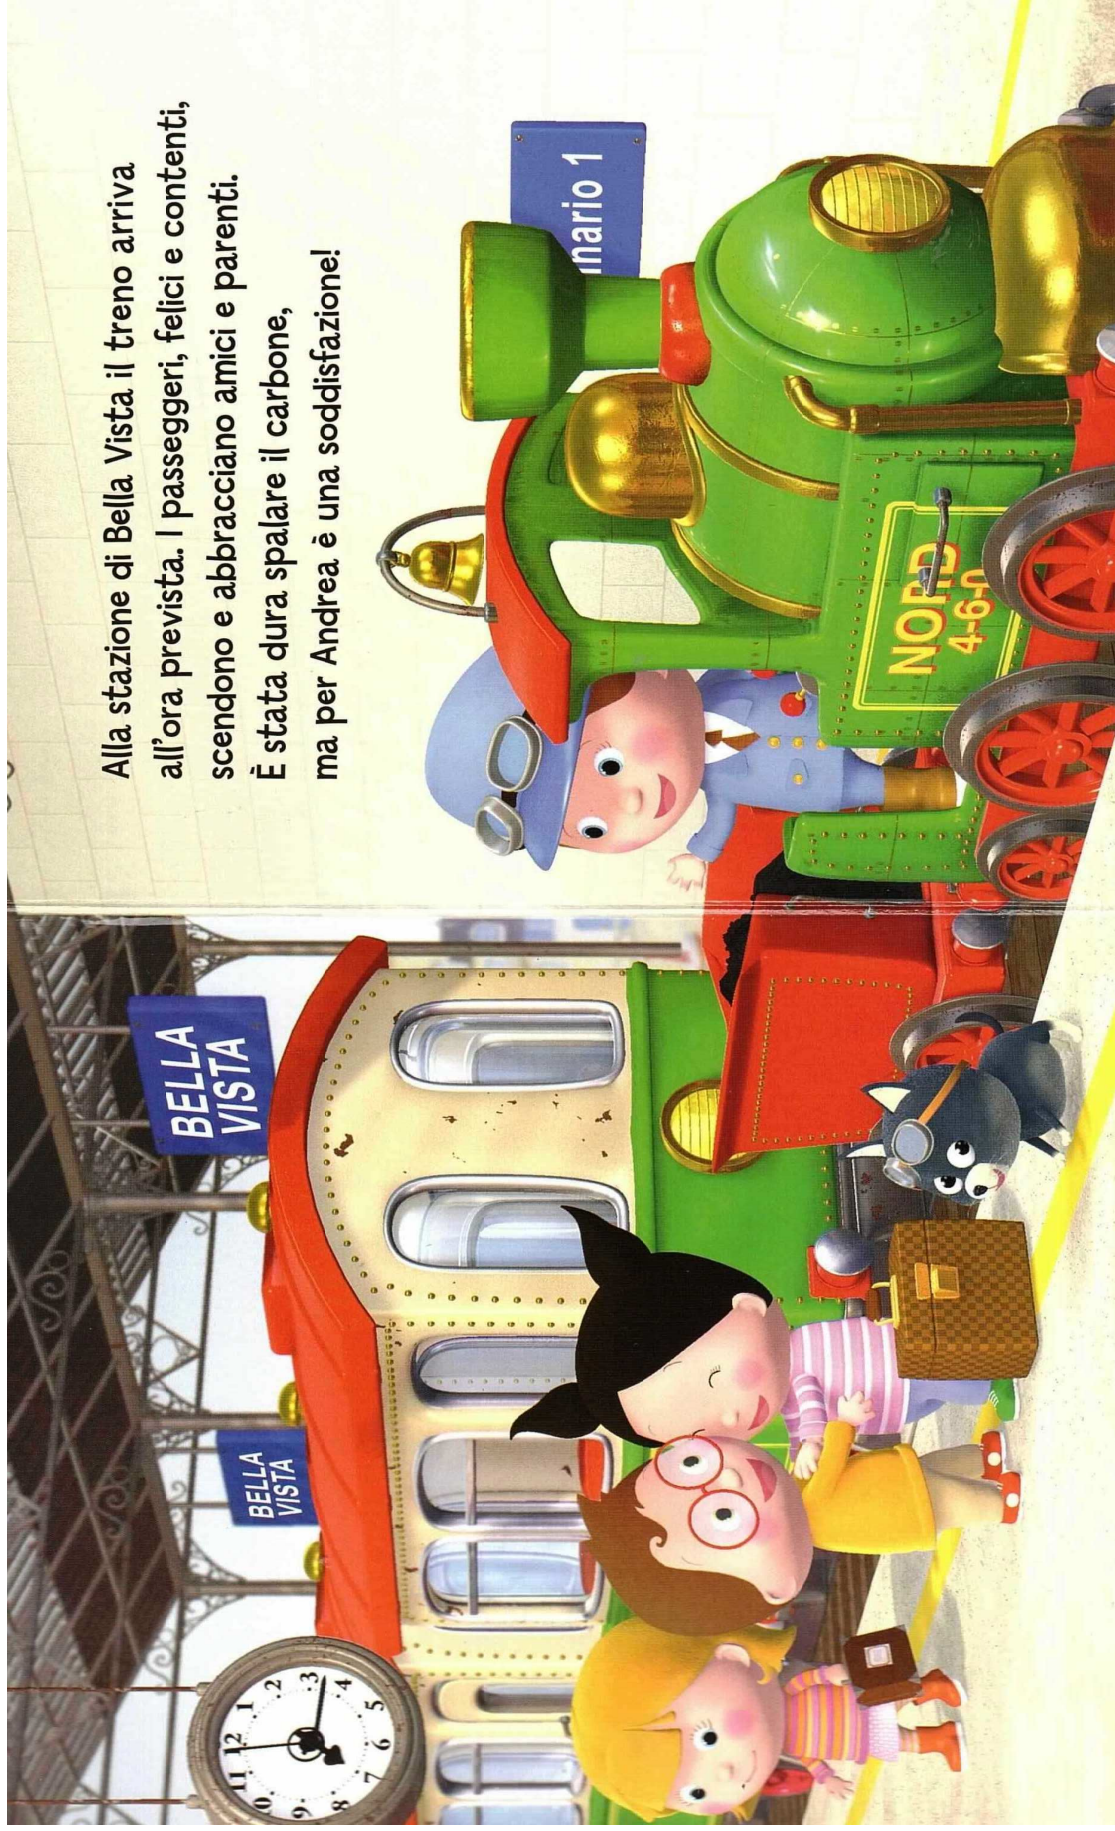

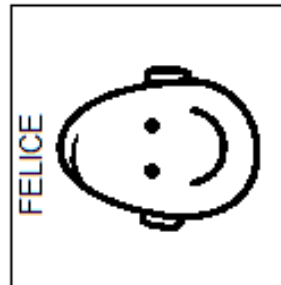

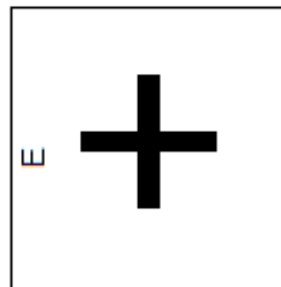

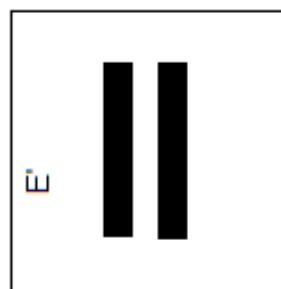

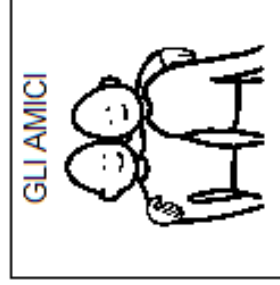

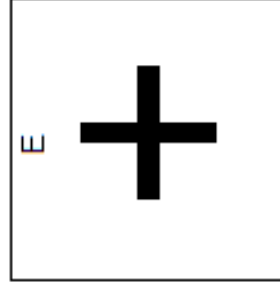

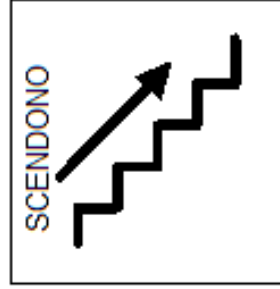

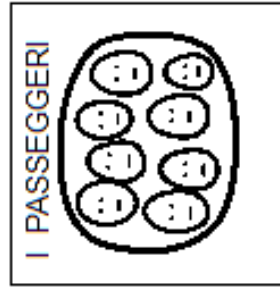

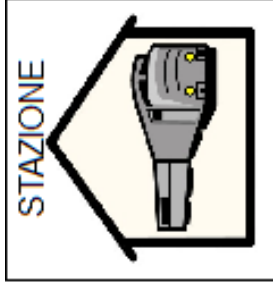

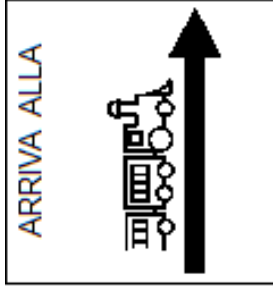

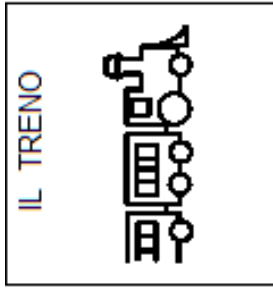

Il treno affronta una lunga salita
poi, proprio quando è quasi finita,
deve imboccare una galleria scura...
ma Andrea è tranquillo,
non ha paura!

Alla stazione di Bella Vista il treno arriva
all'ora prevista. I passeggeri, felici e contenti,
scendono e abbracciano amici e parenti.
È stata dura spalare il carbone,
ma per Andrea è una soddisfazione!
